FOR IMMEDIATE RELEASE:

May 3rd, 2022

On the Leak of Supreme Court Drafted Opinion for Dobbs v. Jackson Women's Health Organization

Future Medical Professionals for Life of America and its affiliates first and foremost condemn the actions of the individual responsible for the break of confidentiality and procedural course of the Supreme Court of the United States. This unprecedented event requires immediate response and consequences dealt to the individual who intentionally leaked an early draft of the opinion for Dobbs v. Jackson Women's Health Organization. This leak was meant to spark public insurrection in attempt to dissuade Pro-Life Justices from passing down this version of the opinion as official. Almost every American has or will be affected by abortion in some manner. This attempt at insurrection will consequentially impact each person and exploit pains that already cut deep.

It is important to remember the leak in reference was an *early draft* from *February* and has been and still may be subject to change at any moment. However, Future Medical Professionals for Life of America endorses the opinion in the state it was leaked – the complete upheaval of *Roe v. Wade* and *Doe v. Bolton*, their remnants being tossed in the “Ash Heap of History” along with other insidious cases such as *Dredd Scott v. Sanford* (60 US 393; 1857), *Plessy v. Ferguson* (163 US 537; 1896), *Buck v. Bell* (274 US 200; 1927), and others that attempted to qualify and degrade legal personhood.

We encourage these Pro-Life Justices to stand firm in their evidence-based opinion that abortion is not protected in the Constitution of the United States of America. In the leaked opinion, Justice Alito states, ***“Roe and Casey must be overruled. The Constitution makes no reference to abortion, and no such right is implicitly protected by any constitutional provision.”*** Science and logic now and always have invalidated the “right” to abortion and it is time the Supreme Court recognize this in law. Future Medical Professionals for Life of America is willing and ready to take a stand for life, no matter the opinion made official in the coming weeks.

Gavin T. Oxley
Chairman of the Board
