

Future Medical Professionals for Life of America

FOR IMMEDIATE RELEASE:

June 24th, 2022

Roe v. Wade Overturned

Future Medical Professionals for Life of America wholly supports the overturning of landmark abortion cases *Roe v. Wade* (1973) and *Planned Parenthood v. Casey* (1992) as first and foremost a constitutional victory. As stated in the majority opinion of the Supreme Court:

“The Constitution does not confer a right to abortion; Roe and Casey are overruled; and the authority to regulate abortion is returned to the people and their elected representatives.”

This decision, after a federal jurisprudence federally protecting abortion for forty-nine and a half years had been in place, finally has corrected one of the greatest human rights abuses of all of history. Each “successful” abortion takes the life of at least one innocent preborn human. Since *Roe’s* conception in 1973, more than 63 million preborn lives have been lost. The overturning of *Roe* and *Casey* is a victory for all preborn lives, those taken past, those still not protected, and those who have been saved due to the actions of the Court.

The actions of the Supreme Court in the *Dobbs v. Jackson Women’s Health Organization* (2022) also serve many women now, and those in future generations. The pro-life movement must continue to support women in their pregnancies and thereafter, assuring support and care for both mother, child, and even father.

Abortion is never medically necessary, and it is the job of the pro-life medical to educate the broader community on medically correct, life-affirming alternatives to abortion that are consistent with practice of true Hippocratic medicine. It is time that we restore the Hippocratic Oath and protect the most innocent lives in any and all capacities. We demand protection of life at fertilization for all.

Gavin T. Oxley
Chairman of the Board
